HYBRID SEEDS

About Us

Incorporated in the year 2015, Iris Hybrid Seeds Private Limited is a prime wholesale trader of OP & Hybrid vegetable seeds with its company head quartered in Model Town, New Delhi. With an illustrious journey of over 7 years now, our company has been setting benchmarks of quality and innovation in the seed industry and is actively engaged in import, export, marketing, procession and trade. At Iris Hybrid Seeds, it has been our constant endeavor to build meaningful relationships with our clientele and to stand true to our commitment of delivering the highest quality of products and service.

Our top-notch quality, stringent standards and set processes right from conducting trials, screening and development to the final product, we ensure a flawless journey. This has only enabled us to capture a colossal customer base in the market and further paved a way for the progression and growth of the company. Well-equipped with state of the art technology, Iris Hybrid Seeds is involved in extensive seed trailing and processing through its very own trailing station and sed processing plant. The company has been witnessing an increasing demand of its unmatched products not only within India but also giving us a competitive edge in key International markets and making us one of the preferred choices in the sector.

Further more, functioning in the export market gave us a deeper understanding of the diverse customer demands and we ventured into importing of International varieties best suited to cater to our customers requirements. Our unalloyed dedication, heart and soul goes into developing world-calss products. The company's vision is aligned towards offering consistency, excellence in quality and an impeccable delivery of our services to further facilitate the growth of farmers in totality and enhance the overall profitability.

F1 SWEET PEPPER KRISHN

- COLOR — Deep green
 - SHAPE — Extended Bell
 - SIZE — 10x7 cm
 - WEIGHT — 140 - 160 gms
 - MATURITY — 65 - 70 days
 - DISEASE TOLERANCE — Tolerant to Virus & Sucking pests.
- REMARKS** — 3-4 lobes , medium early high keeping quality.

F1 HYBRID SWEET PEPPER GOMATI

- COLOR — Deep green
 - SHAPE — Bell
 - SIZE — 8x6 cm
 - WEIGHT — 130 - 140 gms
 - MATURITY — 65 - 70 days
 - DISEASE TOLERANCE — Tolerant to Virus & Sucking pests.
- REMARKS** — 3-4 lobes , medium early, high keeping quality.

F1 SWEET PEPPER SHIVA

- COLOR — Deep green
 - SHAPE — Extended Bell
 - SIZE — 10.5x7 cm
 - WEIGHT — 140 - 160 gms
 - MATURITY — 64 - 69 days
 - DISEASE TOLERANCE — Tolerant to Virus & Sucking pests.
- REMARKS** — High keeping quality

F1 HYBRID BRINJAL EKLAVAYA

- FRUIT SHAPE — Oblong
- FRUIT COLOR — Black Purple
- FRUIT WEIGHT — 180 - 400 gms
- MATURITY — 65 - 70 days

REMARKS — Good shining, less seeds.

F1 HYBRID BRINJAL VINAYAK

- PLANT – Tall spreading with more branches
- FRUIT SHAPE – Round to oval
- FRUIT COLOR – Black shining
- FRUIT WEIGHT – 350 - 450 gms
- MATURITY – 60 - 65 days

REMARKS – It is good tolerant to bacterial wilt.

F1 HYBRID BRINJAL LUV

- FRUIT SHAPE – Long cylindrical
- FRUIT COLOR – Black Purple
- FRUIT WEIGHT – 100 - 110 gms
- MATURITY – 55 - 60 days

REMARKS – Good shining, less seeds.

F1 HYBRID BRINJAL KUSH

- PLANT – Semi erect, spreading
- FRUIT SHAPE – Ellipsoidal long
- FRUIT COLOR – Uniform Pink
- FRUIT WEIGHT – 90 - 110 gms
- MATURITY – 50 - 55 days

REMARKS – It is good tolerant to bacterial wilt

F1 CABBAGE DIANA - 65

- COLOR – Attractive dark green
- SHAPE – High round
- WEIGHT – 1 - 1.5 kg
- MATURITY – 65 days (after transplant)
- DISEASE TOLERANCE – Tolerant to black rot and soft rot.

REMARKS – Good field holding capacity and very good head forming under hot and water logging.

F1 CABBAGE EURO 60

- COLOR – Attractive dark green
- SHAPE – High round
- WEIGHT – 1.5 - 1.8 kg
- MATURITY – 60 days (after transplant)
- DISEASE TOLERANCE – Tolerant to black rot and soft rot.

REMARKS – Late bolting with heat tolerance, good field holding capacity.

F1 HYBRID CABBAGE IHS-801

- COLOR – Attractive green
- SHAPE – Round
- FRUIT WEIGHT – 1 - 1.5 kg
- MATURITY – 65 days (after transplant)
- DISEASE TOLERANCE – Very good tolerant to black rot.
- FIELD HOLDING – 30 - 40 days

REMARKS – Very good and compact head with very good field holding ability.

F1 HYBRID BROCCOLI CALI-09

- PLANT – Semi erect plant suitable for dense culture
- FRUIT SHAPE – Very tender dome shaped
- FRUIT WEIGHT – 500 - 600 gm
- MATURITY – 58 - 60 days (after transplant)
- FLESH – Fresh green buds
- TEMP – Optimal temperature suggested 15°C - 28°C

REMARKS – Good for shipping and strong tolerance to disease.

F1 CAULIFLOWER FRANCO

- PLANT – Semi erect
- FRUIT SHAPE – Compact, dome
- FRUIT COLOR – Cream white
- FRUIT WEIGHT – 500 gms to 850 gms
- MATURITY – 50 - 55 days (after transplant)

REMARKS – Highly heat tolerant, early maturity, high uniformity
